

Minnesota State College Faculty

MEMORANDUM

To: MSCF Chapter Presidents
MSCF Grievance Representatives

From: Larry Oveson, MSCF Co-President

Date: November 6, 2003

Subject: Jeff Wade Letter Dated October 24, 2003

Please see the enclosed letter from Jeff Wade regarding the right of a faculty member to have a disruptive student removed from class. This letter comes directly as a result of issues we raised at the bargaining table, and is in lieu of contract language on the matter.

The letter anticipates policy at each college to affirm this faculty right and to govern the return of the student(s). It is my opinion that this policy should be processed through the Faculty Shared Governance Council.

It is very important that you proceed to work on this policy as soon as possible if either your college lacks such a policy or your existing college policy fails to address these points. Please let me know of your progress or problems with this.

Thank you.
